MERT BURSALIOĞLU

Ankara, Turkey | +90 507 020 16 47 | merttbrsl@gmail.com
linkedin.com/in/mertbursalioglu | github.com/mertbrl

Education

Çankaya University 2024 - Present
Double Major in Software Engineering (Full Scholarship)
GPA: 3.61 / 4.00
Relevant Courses: System Requirements Analysis, Software Design, Programming

Çankaya University 2022 - Present
Faculty of Arts and Sciences, Department of Mathematics (Full Scholarship)
GPA: 3.75 / 4.00
Relevant Courses: Mathematical Modeling, Numerical Analysis, Introduction to Mathematical Software

Ankara University Development Foundation Private Science High School 2018 - 2022
GPA: 95.43 / 100

Experience

BYS Group | Winter Intern 2026

- Conducted end-to-end full-stack development and API integration processes for a multilingual, multi-currency corporate project management panel using FastAPI, React, and Docker.

Huawei | Summer Intern 2024

- Performed training and performance analysis using XGBoost, CatBoost, and various machine learning models by applying feature engineering on large datasets.
- Ensured a sustainable structure in accordance with SOLID principles during coding and design processes.

Projects

- **Early Detection of Cancer (Graduation Project):** Analyzed the impact of preprocessing techniques applied to medical data on model accuracy using Python.
- **Online Auction Application:** Conducted system analysis and design by creating SRS documentation.

Computer and Technical Skills

- **Programming & Database:** Python, Java, C, C++, MATLAB, PostgreSQL
- **Technologies & Tools:** FastAPI, React, Tailwind CSS, .NET, Docker, Git/GitHub, LaTeX
- **Artificial Intelligence & Data Science:** Machine Learning Algorithms (Supervised/Unsupervised), Statisti- cal Modeling, Data Preprocessing, Feature Engineering
- **Methodologies:** UML, SRS, Agile/Scrum

Certificates and Courses

- Python for Data Science - Udemy, 2025
- Java Developer Course - Udemy, 2024
- MATLAB Onramp - MATLAB Academy, 2024

Languages

English – B2 Upper Intermediate (Extended)
